None of this work happens alone. Every dollar given, every hour volunteered, and every pound of food donated reflects a community that believes no neighbor should go hungry or face a financial crisis without support. Thanks to that generosity, we were able to meet rising need throughout 2025 while being good stewards of our funding and keeping our programs strong. As we look toward 2026, we remain committed to stretching every resource further, deepening our partnerships, and continuing to serve our neighbors with dignity and care.
